Ashwood Summer Look Book

Launching on the cusp of summer is our new brownny Collection which taps into a global wanderlust after our collective experience of being furniture bound. "The inspiration behind our brownny Collection is drawn from our unbridled excitement to step back into the world and explore once more," "The collection evokes the feeling of a summer's day in a faraway villa." We mostly enjoyed designing a piece to naturally look like a particular material manufactured in ashwood. "Our collection of ashwood furniture are made from 100% handcrafted artisans from Jodhpur. We loved the collaborative process with our clients & designers to create the carved-like finish."

TABITHAS POSTER BED

Ash is a light colored, smooth-grained hardwood. With its typical straight grain and beige-to-light-brown hue, ash wood is a very attractive option for fine furniture. Its one of the most durable varieties and has an extensive history in furniture industry.

It is durable, lightweight, aesthetically pleasing, and absorbs wood stains well. Today ash is making a splash in home furnishings, particularly in the mid-century modern style.
